

COMPREHENSIVE SERVICE

ON TIME. ON TARGET.
NO EXCEPTIONS.

That's what to expect from Panther.

GROUND FREIGHT

We offer door-to-door, ground freight transportation including expedited, less-than-truckload, and truckload services. We offer virtually any type of specialized equipment and lead the industry in on-time performance.

The strength and size of our ground network has resulted in millions of dollars of cost savings for our customers.

AIR FREIGHT

Our customers benefit from an unparalleled network of more than 4,000 ground and air freight integrators for time-definite service. We optimize shipments by mode, carrier, and delivery to ensure the industry's lowest cost-to-service ratio.

OCEAN FREIGHT

We manage shipments of any size from less-than-container to full containers and oversized cargo. We book cargo, arrange for pickup and delivery, and manage shipping documentation.

LOGISTICS

With Panther, you can achieve a comprehensive warehousing, transportation, and logistics solution that will optimize your use of capital, enhance customer service, and improve inventory management.

MORE SOLUTIONS.

ON TIME. EVERY TIME.

ON TIME. ON TARGET.
NO EXCEPTIONS.

SINCE 1992

Founded in 1992 as an expedited trucking company, Panther remains obsessive about on-time delivery. In fact, our on-time service level surpasses 98.5%. We measure our service within 15-minutes of promised delivery times; so you might say we are relentless.

As we have expanded our expertise and service offerings, including ground, air, and ocean freight service, our customers have continued to benefit from our brand of premium service — without the premium price.

We have built an unparalleled reputation for meeting deadlines at the lowest possible cost and with the highest level of service. On time. On target. No exceptions.

THE PANTHER ADVANTAGE

No competitor can match the convenience of our technology or the strength of our network. Our software searches 200,000 options for air and ground rates and routes, mode-specific and day of the week pricing, and a web-based procurement and tracking system able to be tailored to the needs of each customer.

TRANSPORTATION TECHNOLOGY

From GPS tracking to mode optimization and geofencing, Panther's technology adds value to every step of the transportation process.

We optimize price and service for every shipment, giving customers an opportunity to buy-up or buy-down within a range of clearly-defined transportation solutions.

ONE CALLSM SOLUTION

With the industry's largest ground, air, and ocean transportation network, we help leading companies get products to market with speed and efficiency.

We free customers from the business of transportation and provide them with lower costs and greater resources to devote to their primary businesses.

With one call to us at 800.685.0657, you will open the door to lower costs and a broader set of solutions.

CALL PANTHER.
