

PREMIUM LOGISTICS®

On time. On target. No exceptions.

GROUND, AIR, OCEAN, AND LOGISTICS

Founded in 1992, Panther provides door-to-door transportation solutions — over the road, through the air, or across the ocean — for more than 11,000 customers worldwide, including Fortune 500 corporations, government agencies and blue-chip transportation service providers.

With roots in expedited shipping, we're obsessive about on-time delivery. We measure on-time service within 15 minutes of promised pick-up and delivery, and our on-time performance surpasses 98.5%.

As we have expanded our portfolio of services, we have continued to build upon our reputation for surpassing customer expectations at the lowest possible cost and with the highest level of service.

ONE CALL SOLUTION

Panther's One Call Solution is an outsourced shipment and logistics management program. It frees customers from the business of transportation and provides them with lower costs and greater resources to devote to their primary businesses.

- Integrated ground, air, and ocean services — one-stop shopping and price comparison
- Rate and routing optimization options based on service, availability and freight
- Access to our network options, reduce turn-downs and keep costs low
- Mode agnostic and carrier neutral shipping
- Full shipment management services
- Constraint management — solutions to meet your compliance needs
- Aggregation or distribution
- Dedicated phone and online service, 24/7
- Dedicated customer care team and onsite booking support — a cross-departmental team dedicated to serving your needs
- Direct vendor and supplier billing
- Freight audit and bill payment services
