Thank you for your interest in NDTA
The Association for Global Logistics & Transportation

Who are we?

NDTA is comprised of both corporate and individual members. Corporate members are key players in the logistics and transportation related industries as well as passenger and leisure travel, IT and distribution. Individual members include military logisticians, civilian government employees, and senior and mid level executives from private industry.

What do we do?

NDTA is a non-political, non-profit educational association of government, military, and industry professionals dedicated to fostering a strong and efficient global logistics and transportation system in support of our economy and national security. NDTA serves as a vital link among the armed forces, government and industry on current matters of logistics, transportation, travel, distribution, and security. NDTA's status as a tax exempt organization fully recognized federally by the Internal Revenue Service allows for knowledge sharing in a non-partisan, fair, and objective environment among all branches of the military, federal government, logistics and transportation related industries. Its 9500+ members throughout the world are able to discuss critical logistics and transportation issues openly in a professional atmosphere consistent with the principles of government ethics and without commercial trade constraints. The results are shared with various interested parties.

NDTA provides a channel for communication of ideas, issues, education and networking for its members. NDTA is comprised of over 60 chapters in the US and overseas. This chapter driven organization conducts events and provides opportunities to increase awareness of logistics and transportation related issues along with community involvement. There are six functional committees dedicated to reviewing and working issues of national significance. The NDTA conducts two major events per year. The NDTA Annual Forum and Exposition, held in the fall, is the primary professional meeting and trade show for all of its members. NDTA also manages the Exposition in support of the Army's Surface Deployment and Distribution Command's annual training symposium held each spring. Additionally NDTA conducts 12 functionally oriented committee meetings each year. It is through these committee meetings that industry and government work together to address topics of common interest.

The NDTA Foundation and our Chapters provide a source of scholarship funds to deserving students pursuing an education or career in logistics, transportation or a related area. Annual scholarships totaling more than \$100,000 are given each year to outstanding high school and college students.

Sincerely,

Kenneth R. Wykle
